Technical
Countermeasures
Committee (TCC)

30 December 1986
TCC-009-86

MEMORANDUM FOR THE CHAIRMAN, NATIONAL OPERATIONS SECURITY
ADVISORY COMMITTEE

SUBJECT: Electronic Security (ELSEC) Improvements - ACTION
MEMORANDUM

1. (U) At the first meeting of the Technical Countermeasures Committee (TCC), the Army Member proposed that the TCC become the prime advocate for technical improvements in ELSEC. After consultation with [redacted] Chairman, IG/CM(T), the TCC has accepted the challenge to improve the technical protection from exploitation presently provided to noncommunications emitters. 25X1

2. (C) It is our understanding that the majority of the present countermeasures employed to provide security to these emitters are primarily procedural; e.g., [redacted] 25X1

If you can identify specific vulnerabilities of noncommunications emitters which are not amenable to correction by existing or planned procedural or doctrinal actions, the TCC will investigate the feasibility of reducing or eliminating these identified vulnerabilities through the development and application of technical countermeasures.
